

Articulation and Transfer Agreements: Regent Universities and Iowa Community Colleges November 2001

In addition to the individual articulation and/or transfer agreements that follow in this document, an "Associate of Arts Articulation Agreement" exists between the three Regent Universities and 15 Iowa Community College Districts for students transferring with an Associate of Arts degree from an Iowa Community College to the University of Iowa, Iowa State University, or University of Northern Iowa. Students transferring with an Associate of Arts degree to a Regent University who have fulfilled the requirements outlined in the Agreement will have met all freshman and sophomore level general education requirements for, and will be enrolled at junior level status in, the college of liberal arts or other participating colleges* within the Regent Universities. The "Associate of Arts Articulation Agreement" is attached as an appendix to this document.

*participating colleges

University of Iowa:

- ¹College of Liberal Arts & Sciences (includes approximately 60 specific undergraduate programs/majors)
- College of Education
- College of Business Administration

Iowa State University:

- College of Liberal Arts & Sciences

University of Northern Iowa:

- All Undergraduate Colleges within the University

Understanding the Document:

The 15 Iowa Community College Districts are listed down the left margin of each page and the three Regent Universities are listed across each page. Of the list, some are articulation agreements, others are transfer agreements, and some are both. The number in parenthesis indicates the number of academic programs and/or majors from the community college that articulates and/or transfers to the university's academic program and/or major, which precedes the number in parenthesis. It also should be noted that the options that exist within a particular major are not separated out from the major. For example, within the Industrial Technology major at Iowa State University, there are two options, Manufacturing and Occupational Safety. In addition, if a single campus of a multi-campus community college system has an articulation and/or transfer agreement unique to its campus, the campus is listed in parenthesis.
