**ANNUAL REPORT ON CAMPUS SAFETY AND SECURITY**

**Action Requested:** Receive the report.

**Executive Summary:** In accordance with Board of Regents Comprehensive Campus Safety and Security Policy (Chapter 11 of the Board's policy manual), the third annual report is presented. The individual reports from each institution are included as Attachments A through E. Crime statistics, by quarter, for calendar years 2009 and 2010 for each of the universities are included as Attachments F through H.

In compliance with Board policy, the annual reports address the following topics: mass communications capabilities; threat assessment and management; physical security capabilities; and training of institutional personnel as well as staffing, safety and security goals, relationships with other law enforcement agencies and use of force/firearms. A brief summary of the reports follows:

MASS COMMUNICATION CAPABILITIES

- The three universities utilize Connect-Ed for electronic mass communications. This includes e-mail, text messaging and voice mail.
- Each university has a system for external mass voice communication through outside speakers with siren and/or voice notification.
- The special schools use e-mail and web notification, intercom systems, emergency boxes in elevators and stair towers. ISD utilizes a visual alert system to insure all deaf and hard of hearing students and staff receive emergency notifications.

RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES

- Each university has long-standing relationships with law enforcement entities in the counties and cities surrounding the campuses.

STAFFING

- The police departments at the three universities are staffed with both state certified police officers and civilian employees.

University of Iowa

- 41 sworn, state certified officers
- 16 security guards
- 9 state certified dispatchers
- 1 fire safety coordinator
- 3 support staff.
- 11 part-time student employees
- 2 explosives detection canine (one provided by SUI athletics)

Iowa State University  
33 sworn, state certified officers  
8 full-time civilian staff  
Part-time student employees

University of Northern Iowa  
18 sworn, state certified officers

**CRIME STATISTICS**

Crime statistics for 2009 and 2010 for each university appear in Attachments F, G, and H. The table below provides a summary by quarter in each of the two years of the numbers of offenses, total charges and total arrests.

	QTR 1		QTR 2		QTR 3		QTR 4		YTD	
	2009	2010	2009	2010	2009	2010	2009	2010	2009	2010
<b>TOTAL NUMBER OF OFFENSES/INCIDENTS:</b>										
<i>SUI</i>	507	595	518	667	621	847	698	894	2344	3003
<i>ISU</i>	486	509	551	503	656	582	578	659	2271	2253
<i>UNI</i>	119	122	87	71	121	125	156	109	483	427
<b>TOTAL NUMBER OF CHARGES:</b>										
<i>SUI</i>	246	285	229	384	370	806	384	920	1229	2395
<i>ISU</i>	176	247	330	295	486	395	318	421	1310	1358
<i>UNI</i>	75	70	35	35	69	66	95	59	274	230
<b>TOTAL NUMBER OF PEOPLE ARRESTED:</b>										
<i>SUI</i>	177	228	175	297	292	673	311	772	955	1970
<i>ISU</i>	124	184	263	228	403	302	246	316	1036	1030
<i>UNI</i>	57	56	30	30	52	49	74	45	213	180

Beginning with the 3<sup>rd</sup> quarter of 2010, the universities began keeping statistics on the number of university students charged and as separate totals the number of students charged with alcohol-related offenses. The table below provided information on the 3<sup>rd</sup> and 4<sup>th</sup> quarters of 2010.

Calendar Year 2010 -- 3rd Quarter

	TOTAL CHARGES		ALCOHOL-RELATED CHARGES	
	TOTAL	STUDENTS* CHARGED	TOTAL	STUDENTS* CHARGED
SUI	806	255	580	169
ISU	395	171	274	120
UNI	66	33	29	13
TOTAL	1267	459	883	302

Calendar Year 2010 -- 4th Quarter

	TOTAL CHARGES		ALCOHOL-RELATED CHARGES	
	TOTAL	STUDENTS* CHARGED	TOTAL	STUDENTS* CHARGED
SUI	920	383	587	205
ISU	421	245	240	131
UNI	59	31	27	10
TOTAL	1400	659	854	346

\*university students

	Percent of Charges to Students	
Total Charges	3rd Quarter	4th Quarter
SUI	32%	42%
ISU	43%	58%
UNI	50%	53%
TOTAL	36%	47%
Alcohol-related Charges	3rd Quarter	4th Quarter
SUI	29%	35%
ISU	44%	55%
UNI	45%	37%
TOTAL	34%	41%

#### TRAINING OF INSTITUTIONAL PERSONNEL

- The reports identify numerous training activities undertaken by the police departments. Some of these include:

University of Northern Iowa -- held two tabletop exercises -- one on emergency management procedures and one on pandemic flu.

Each sworn officer completed an online training session for the Basic Incident Command System provided by FEMA.

Iowa State University -- An overview of safety-related issues and services is provided to all incoming students and their parents during orientation sessions held throughout the month of June, as well as at Destination Iowa State. Prevention and outreach programs have been provided to faculty and staff covering topics such as workplace violence; campus safety; dealing with difficult people; and threat assessment/management processes.

The annual ISU DPS publication, "*Safety & You*" is electronically mailed to all faculty, staff, students, and prospective employees. This document is printed in hard copy form and posted on the departmental web site. It contains information pertaining to personal safety and property security as required by the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

The ISU Department of Public Safety continues to annually train Department of Residence (DoR) staff and Cyclone Aides regarding safety related services for students, staff, faculty, and visitors. These sessions are conducted as part of their respective orientation programs.

University of Iowa -- A table top training session involving an active shooter scenario was held. Representatives of various departments including President Mason and the Vice Presidents participated.

The University of Iowa Police Crime Prevention Specialist presented safety related educational offerings as follows: Rape Aggression Defense program, Personal Safety and Self-Protection, and Alcohol Awareness.

UIPD utilized mass email as well as the website to provide safety related information.

The Threat Assessment Specialist and Crime Prevention Specialist created a "Recommended Protocol for Addressing Potentially Violent Situations" which addresses what to do when dealing with potentially violent people and situations. It was created, primarily, for frontline persons, i.e. clerical staff, office assistants, and others who deal directly with the public.

V.I.S.T. (Violent Incident Survival Training) is a comprehensive approach, advocating integrated strategies incorporating Environmental Design, Technology and Communication, Law Enforcement Response, and ACTION by those in immediate danger. The response options that are taught specialize in preparing schools, universities, churches, hospitals, and workplaces in how to respond to a violent attack on large numbers of people and increase the odds of survival. V.I.S.T. teaches individuals proven techniques and provides them with several options that are effective in avoiding, escaping and, if necessary, protecting intended victims from active shooters. UIPD has six officers trained as instructors in V.I.S.T. who present a two hour training component for faculty, staff and students. During 2010 V.I.S.T. instructors trained approximately 770 faculty, staff and students.

#### SMOKING BAN

- Each department has responded to numerous complaints of smoking violations during 2010 – SUI, 210 complaints; ISU, 189 and UNI, 130.

#### STUDENT INVOLVEMENT

- Each police department employs students in various capacities including evening escorts for students, dispatch responsibilities, records management and parking enforcement. Student leaders also participate in campus safety walks to identify potential hazard areas.

## CAMPUS SAFETY AND SECURITY REPORT

### THE UNIVERSITY OF IOWA

#### Calendar Year 2010

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

#### MASS COMMUNICATION CAPABILITIES

- The University of Iowa (UI) currently utilizes Connect-Ed (HAWK ALERT) for the purpose of mass communication notification to UI faculty, staff and students. This system utilizes e-mail, text messaging and voice mail. The Hawk Alert System is used to notify the campus community of threats to physical safety in emergency situations (tornado, violence, hazardous material incident, and so on). Hawk Alert allows UI administrators to send recorded or electronic emergency messages ("Hawk Alerts") to mobile phone, home phone, office phone, and e-mail (simultaneously). A Hawk Alert web page provides information to the UI community on registration and notification options and contains an extensive Q&A section.
- A review process began in 2010 to examine several emergency communication vendors and it was decided to retain the current system. Possible future avenues of mass communication are being explored such as linking Hawk Alert with University messaging center displays within buildings and incorporating social networking websites. The Office of University Relations is working to improve the automatic integration of the University of Iowa home page to be the primary site for information related Hawk Alerts.
- The UI currently utilizes an outdoor warning system consisting of five outdoor towers on the main campus and one tower located on the Oakdale campus. These towers are capable of emitting a severe weather warning siren as well as being used as a campus wide public address system utilizing recorded and real time live voice messages. The University's outdoor warning system is activated by UI Public Safety when other sirens located throughout Johnson County are activated during severe weather events. In addition, the University's system will be used to broadcast warnings for other weather and non-weather situations. Testing of the University outdoor warning system occurs on the first Monday of every month at 9:00 a.m. in conjunction with the testing of other sirens located in Johnson County; battery power is tested as well. The outdoor warning system has a companion device, a receiver that can be placed inside of buildings, capable of delivering the same emergency messages.

#### ***Tower locations:***

##### Main Campus

- West of Parklawn Housing Building
- NW of Banks Field
- SE of Gilmore Hall
- NE corners of Melrose Ave and Mormon Trek Blvd.
- SE of the Boyd Law Building

##### Oakdale Campus

- SE of Multi-Tenant Facility

***Three activation points:***

- Primary encoder (method by which message is transmitted) is located in the UIPD Communications Center
  - Mobile encoder is maintained in a "Pelican" case with AC & DC power sources
  - Portable encoder (Kenwood TK-3180 handheld radio)
- The UI can also use the Mass E-Mail System, which will transmit information using the University e-mail system to all faculty, staff, and student e-mail accounts.
- Efforts are under way to connect UI Home Page Web Site users to the most current information, with links to the UI's Critical Incident Management Site. When completed, the site will connect students, faculty, staff, patients, parents of students, and the general public to specific, pertinent information about continuity of operations, advisories and notifications, health and safety information, and additional information as it becomes available. Both the UI Homepage site and the Critical Incident site will be maintained by the Office of University Relations staff, in cooperation with Information Technology Services, and other agencies as appropriate. Implementation is planned for 2011.
- The UI will continue to utilize news releases and direct media contact to provide information for students, parents, staff, faculty, and the general public.
- In the event that Internet communications are deemed ineffective, University Relations will use available radio stations (KRUI, KSUI, and WSUI) and the use of faxed releases sent telephonically to news media to disseminate information. University Relations would also schedule press briefings at designated locations to apprise news media in person.
- UI DPS and UI Facilities Management are progressively moving toward using advanced fire alarm panels for interior building emergency communications that will be capable of being activated from a single point which will be located in the DPS dispatch/emergency communications center.

With any delivery system used for mass or emergency communications, there will be challenges. Some of those challenges are as follows:

- **Content of the messages** – the goal is to inform without alarming, to be as brief as possible but still provide enough relevant information that allows the audience to make good decisions.
- **When to deliver the messages** – deciding if a "community" emergency is truly an emergency that will affect the campus and what types of emergency messages should be broadcast; is the campus better served delivering this message or, by not delivering the message,
- **Complying with Clery** – Timely Warning Notifications
- **Timeliness and speed of delivery** - Hawk Alert, UI Website
- **Continuous training** (daily for dispatchers)

**THREAT ASSESSMENT AND MANAGEMENT**

- The UI utilizes the Behavior Risk Management (BRM) Protocol. The BRM is an attempt to respond with a planned comprehensive approach to the continuum of behaviors that could lead to hostility and violence in the workplace. Although it is difficult to "predict" violent or hostile behavior, there are methods to determine the risk components of a situation. BRM takes a clinical as well as consultative approach. The Behavior Risk Management Protocol is a planned, comprehensive, multidisciplinary response to workplace hostility and violence. The purpose is to ensure a safe and civil workplace for all UI employees by addressing any

- related individual or environmental issues that may contribute to hostility, violence or physical danger on the job.
- While the BRM protocol addresses faculty and staff, the threat assessment protocol creates an integrated and coordinated process for identifying and responding to students, faculty, staff, or other University affiliates who may be at risk of harming themselves or others, and then to respond effectively with all parties who may be involved with the concerning situation. The overall goal is to mitigate or eliminate any known threats as well as connect affected persons with appropriate resources.
- The UI established a Threat Assessment Team (TAT) in response to violent incidents occurring on college campuses across the nation. TAT includes representatives from Human Resources, Student Services, Counseling, General Counsel and the University of Iowa Police. TAT works in conjunction with the Faculty and Staff Services/Employee Assistance Program, Resident Services, the Office of the Dean of Students, and coordinates activities involving multiple stakeholders within the University of Iowa community. Additionally, TAT works closely with area law enforcement agencies.
- Two UI Threat Assessment Specialists (TAS) coordinate efforts and provide needed services. Their responsibilities include responding to reported concerns, monitoring, interviewing and developing assessment and prevention programming. TAT worked over 187 cases in 2010 including consultations.

#### **RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES**

- U of I DPS has a long standing mutual aid agreement with the Iowa City PD, Coralville PD and the Johnson County Sheriff's Office which allows for the exchange of law enforcement resources (personnel and equipment) as needed. The UI Police division is a member of the Johnson County Drug Task Force, Sexual Assault Investigators Team, Sexual Assault Response Team and the Johnson County Metro Bomb Squad. We also work closely with all divisions of the State of Iowa Department of Public Safety as well as federal law enforcement agencies. UIPD is a member of the Law Enforcement Intelligence Network and has two members on the FBI's Joint Counter Terrorism Task Force.
- Radio interoperability for all emergency services in Johnson County became a reality in 2010/11 with the establishment of the Johnson County Joint Emergency Communications Center (JECC). The system includes the University of Iowa Police, Iowa City Police, the Johnson County Sheriff's Office, Coralville Police, North Liberty Police, University Heights Police, Iowa City Fire, Coralville Fire and the Johnson County Ambulance Service as well as other Johnson County fire departments. The new radio system allows all Johnson County emergency services to communicate with one another. The University of Iowa Police dispatch/emergency communications center will begin serving as a backup Public Safety Answering Point for the JECC in March of 2011. Additionally, Johnson County law enforcement agencies will share the same records management system allowing agencies to share pertinent information electronically.
- Agency heads from UIPD, ICPD, Coralville PD, the Johnson County Sheriff's Office, North Liberty PD and the Johnson County Attorney meet monthly to discuss shared interests and concerns.

#### **PHYSICAL SECURITY CAPABILITIES**

- Currently the UI Department of Public Safety (DPS) has 190 cameras feeding into the dispatch and emergency communications center. This includes 83 cameras covering specialized labs, residence halls, studio arts and IMU/Richey Ballroom; 70 covering the

- University Capitol Centre and 8 connected to 22 campus Code Blue emergency phones. Digital video recorders are used to record information for post event investigations if necessary. Additionally, some areas have local motion and intrusion alarms which will alert our dispatchers. Due to the most recent version of electronic access control systems utilized on campus, DPS can also view various cameras at the following locations: Hillcrest, Rienow, Slater, Quad, Mayflower, Parklawn and IMU.
- Eight residence halls, Parklawn, Mayflower, Rienow, Currier, Stanley, Slater, Hillcrest and Quadrangle, are currently using cameras in conjunction with "Prox Card" access at entrances. These halls have cameras at exterior doors and all first floor access points to student living spaces (elevators, stairwells, hallway doors). In addition these halls may have cameras at the 24 hour desks, some lounge spaces and Information Technology Centers. Cameras are monitored at the 24 hour residence hall desks; alarms informing staff that doors are propped open will alert staff to watch camera monitors to respond appropriately to those doors. Monitors scan each camera and record activity which is stored for a limited amount of time. All residence halls will be added to this system in the next few years.
- In 2009 all residence hall fire alarm panels were connected to DPS dispatch/emergency communications. This eliminated the decades long practice of fire alarms reporting to an off-site third party receiver.
- The DPS Security Division installed a "Time Keeping" security guard tour system in all residence halls and additional leased properties used by University Housing. The system tracks DPS Security Guard routes and activities and provides detailed electronic reports.
- UI Facilities Management houses master keys; issues keys and proximity cards; grants access rights based on departmental requirements; maintains a university-wide key inventory database of key information and services lock systems. The majority of both exterior and interior doors that have a locking function are keyed. Electronic access, Millenium Enterprise (aka Marlok), is installed in 60 buildings and connected to approximately 1500 doors, both interior and exterior. Approximately two-thirds of these locations utilize the UI Identification card and magnetic swipe readers; the other one-third of access-controlled locations utilizes Facilities Management-issued proximity cards and proximity readers. Some administrative units have taken on responsibilities for programming user access, while others continue to place a high reliance on Facilities Management for access control services.
- Led by Facilities Management, the University of Iowa finalized a multidiscipline, year-long assessment of control technology to replace the current Marlock standard with a control system capable of meeting current and future institutional needs for card access, security, distributed control, and integration with building systems controls and institutional information technology databases. The University has selected AMAG software/firmware and Security Equipment Inc. as the AMAG integrator/reseller for the programs and components. We hope to sunset the Marlock system in approximately 8 to 9 years.
- Concerns about safeguarding university assets have highlighted the need to integrate "building access" and "building security." The challenge is to provide appropriate control and security for all major buildings without unduly compromising convenience and the campus culture of openness. To help guide the process, the University has convened an Access and Security Steering Committee who has developed a University of Iowa Access and Security Strategic Plan to address security and access control for new and existing buildings. The committee includes members from Facilities Management, Office of the Provost, Information Technology Services, Public Safety, Student Services and Research Administration. The areas of concern that are being reviewed by the committee and various sub-committees are as follows:

- Central Control Technology (AMAG)
- Security Assessment, Process & Priority
- Design and Installation Standards
- Key and Card Issuance
- Access Cards
- Integrated Databases
- Security Monitoring, Analytics
- Service and Support Model
- Financial Support Model
- Administration Policy on Card Access and Security

## STAFFING

- The UI Police Division currently employs 41 sworn, state certified officers, 16 security guards, 9 state certified dispatchers, 1 fire safety coordinator and 3 support staff. Part time student employees (11) assist with guard duties, fingerprinting, NITE RIDE, records management and dispatching.
- UIPD has two explosives detection canine; one provided by the University of Iowa Athletics Department.

## TRAINING OF INSTITUTIONAL PERSONNEL

- In 2010 UIPD held a three hour table top training session involving an active shooter scenario. Various departments participated including President Mason and the Vice Presidents.
- For several years the University of Iowa Police Crime Prevention Specialist has presented safety related educational offerings including the following:
  - **Rape Aggression Defense program (R.A.D.)**
  - **Violent Incident Survival Training (V.I.S.T.)**
  - **Personal Safety and Self-Protection**
  - **Disruptive Persons**
  - **Alcohol Awareness**
  - **Crime Prevention Newsletters (C.P.N.)**
  - **Annual parent/student orientation presentations**
- UIPD utilizes mass emails as well as the website to provide safety related information.
- V.I.S.T. stands for **Violent Incident Survival Training**. The program is a comprehensive approach, advocating integrated strategies incorporating Environmental Design, Technology & Communication, Law Enforcement Response, and ACTION by those in immediate danger. The response options that are taught specialize in preparing schools, universities, churches, hospitals, and workplaces in how to respond to a violent attack on large numbers of people and increase the odds of survival. V.I.S.T. teaches individuals proven techniques and provides them with several options that are effective in avoiding, escaping and, if necessary, protecting intended victims from active shooters. UIPD has six officers trained as instructors in V.I.S.T. who present a two hour training component for faculty, staff and students. During 2010 V.I.S.T. instructors trained approximately 770 faculty, staff and students.

## USE OF FORCE/FIREARMS

- UIPD officers carry the M&P 40 caliber Smith and Wesson handgun.
- Commission on Accreditation for Law Enforcement Agencies Standards (CALEA) standards dictate that we must have a use of force policy: Officers have to receive training annually on these standards, must be trained with their authorized weapons, require reports when weapons are used, and cannot carry weapons until they have been trained. New officers must review all related policies prior to being issued weapons.
- The University of Iowa Police Department meets all CALEA standards and exceeds Iowa Law Enforcement Academy (ILEA) standards in regards to weapons qualification; CALEA dictates that we must have a policy that requires qualification.
- UIPD officers qualify twice a year with two qualification runs at each session, for a total of four; successful qualification runs are required; this exceeds state and national standards. Officers qualify on the low light course once a year, and shotgun once a year, meeting ILEA standards. For rifle qualification, UIPD requires 3 different courses of fire; standard FBI 100 yard course, the Close Quarters Combat Course, and the Close Quarters Combat Course in low light. This exceeds the standard FBI 100 yard course. UIPD currently has 6 ILEA certified firearms instructors on staff conducting all firearms training.
- UIPD also conducts *Simunitions* training once a year. This involves interactive training using devices that fire simulated rounds and a process that records officer actions with the simulated weapon. UIPD officers also train using the Multiple Interactive Learning and training Objectives system (MILO). Officers are required to train with MILO at least once a year; however, most officers will use the system several times a year. The MILO system instructs officers on the appropriate use of force, i.e., when to fire and when not to fire a weapon; new officers must receive this training before they are allowed to perform their duties. Both of these training opportunities exceed ILEA requirements.
- Five of the department's fourteen Emergency Response Team (ERT) officers received 40 hours of initial training and the remaining nine members updated their training (October 2010) with Tactical Missions Consulting, operated by a 23 year veteran/supervisor (retired sergeant) with LAPD SWAT, the premiere tactical unit in the United States. UIPD-ERT has been training since August of 2008, logging 4-8 hours of training a month.
- UIPD has facilitated access to training sites on campus for local law enforcement agencies. This creates a close partnership and provides the area agencies with knowledge of campus facilities, community and practices. This partnership creates a close working relationship and helps facilitate future assistance in the event of an incident on campus requiring mutual aid.
- UIPD was involved in joint training September 14 of 2010 with Iowa City PD, Johnson County Sheriff's Office and Coralville PD tactical units conducted at Oakdale on the UI Oakdale campus. This involved day long tactical exercises at three different scenario stations: vehicle takedown, room entry/clearing and joint tactical response.
- UIPD will continue to work closely with local law enforcement agencies to implement training for all area agencies regarding the response to an active shooter. UIPD continues to train and work with local agencies in reference to weapons and tactical training so we are "on the same page" in the event of an emergency in which multiple agencies would be needed for an appropriate response to an incident of violence on or adjacent to campus.
- ALERRT - Advanced Law Enforcement Rapid Response Training. ALERRT is a 2-day operator course that is similar to Active Shooter Training (AS) but is far more detailed and involves choreographed situations with specific training points. It addresses all of the components in the ILEA-AS course and also provides instruction in moving and firing in teams of 2 to 5, room clearing, rescue, improvised explosive devices (IED) recognition and

- hostage situations. Instruction included dividing the class into groups with each team participating in exercises with simulated weapons and rounds to place participants in stressful situations. The department has four officers trained in ALERRT.

## **STUDENT INVOLVEMENT**

- Students continue to be involved in the following:
  - NITE RIDE (late night safe ride option for women)
  - Citizens Police Academy; (i.e., a ten week academy for private citizens conducted by UIPD, Iowa City PD, Coralville PD and the Johnson County SO)
  - Student employees (i.e., traffic control, campus walking patrols, assist with VIP escort services, dispatching)
  - We continue to offer law enforcement internships for students (high school and college level)
  - The University of Iowa Emergency Medical Services Student Interest Organization was conceived in August 2009 and is sponsored by the University of Iowa Department of Public Safety with coordination provided by the University of Iowa Fire Safety Coordinator.

## **SMOKING BAN**

- UIPD continues to respond, warn, and direct smokers to areas where smoking is allowed. In 2010, UIPD officers responded to 210 prohibited smoking calls.
  - 186 contacts were initiated by UIPD officers
  - 24 contacts were complaint driven
  - 12 citations were issued

## **SAFETY AND SECURITY GOALS**

- Complete Access and Security Strategic Plan including the systematic installation of the AMAG access control system; DPS sections
- Continue to conduct annual table-top emergency exercises to test the various critical incident and emergency plans
- Continue developing relationship with UI Risk Management and continue existing efforts to establish protocols for preventing/addressing identified risks, including but not limited to:
  - Driver screening
  - Pandemic flu response and planning, other natural or manmade emergencies
  - General safety protocols and requirements encompassing faculty, staff, students, visitors and contractors
- Complete the process of connecting advanced fire alarm panels to connect to DPS dispatch/emergency communications to facilitate a single point of emergency message transmission for internal building emergency communications
- Continue to work on Kinnick Stadium security improvements
- Work with Student Services to revise the UI Missing Student protocol

## **CAMPUS SAFETY AND SECURITY REPORT**

### **IOWA STATE UNIVERSITY**

#### **Calendar Year 2010**

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

#### **MASS COMMUNICATION CAPABILITIES**

- ISU continues to utilize Connect-Ed as its selected electronic mass notification vendor. Ten administrative officials throughout the university, representing key disciplines, are authorized to activate this system. The program was tested once and utilized on three occasions during the past calendar year, primarily to apprise community members of flood-related information. Positive feedback regarding mass notification capability has been received from system subscribers.
- The university continues to utilize an Emergency Message Recording System (EMRS) in conjunction with ISU Alert. A loop recording can be played to an unlimited number of people calling the designated telephone number (4-5000); this is the same number displayed when the ISU Alert system is activated. The recorded messages can be updated as conditions change.
- An Emergency Alert Homepage has been designed to enhance communication capabilities. The system is designed to overwrite the ISU homepage in a manner that draws attention to the emergency—the elimination of graphics speeds access for those requiring immediate information. Ten administrative officials throughout the university, representing key disciplines, are authorized to activate this system. However, it is recognized that dire circumstances would need to exist before information would be made available to the entire world. Archived messages available for viewing would be used to track incident progression.
- An outdoor warning system, consisting of five towers placed strategically throughout campus, was installed more than two years ago; the equipment has siren and voice capability. Procedures for activation have been developed and dispatch personnel have been trained in unit operation. Testing of the outdoor warning system is conducted monthly, unless inclement weather is present or projected. Templated voice messages relating to a variety of emergency conditions have been authored to expedite message delivery.
- CodeRED, a multi-platform emergency notification system, was recently implemented in Story County. This product utilizes internet mapping capability for geographic targeting of calls, coupled with a high speed telephone system capable of delivering emergency messages at the rate of up to 60,000 calls per hour.

## **THREAT ASSESSMENT AND MANAGEMENT**

- ISU DPS has effectively utilized a Threat Assessment and Management System (TAMS) since 1994. The process is designed to identify individuals of concern, investigate people and situations that have come to the attention of others, and assess the information gathered. If necessary, individuals and situations are managed to reduce any potential threat that may be posed.
- The department continues to partner with other institutional entities in threat management issues, including: Dean of Students Office; Thielen Student Health Center; Human Resource Services; Department of Residence; and Student Counseling Services.
- The department continues to actively participate in the multi-disciplinary Student Assistance and Follow-Up Evaluation (SAFE) Team, as well as the Faculty and Staff Safety Team (FASST). These groups meet weekly, or more often as needed, to share/assess information and respond to potentially dangerous situations.
- The threat assessment and management process is coordinated by an individual who possesses a wealth of experience and specialized training in this area.
- Sworn staff members have conducted training sessions throughout campus with regard to identifying and dealing with people who threaten or exhibit violent or harassing behavior. Four officers received instruction in the delivery of Violent Incident Response Training (VIRT) sessions.

## **RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES**

- ISU DPS entered into a mutual aid agreement with the Ames Police Department and the Story County Sheriff's Office in 1997. This intergovernmental agreement provides for the effective and immediate exchange of law enforcement resources.
- Officers continue to work collaboratively during major special events, including: athletic contests; political rallies; student celebrations; major conferences; career fairs; and major presentations.
- All law enforcement agencies within Story County utilize an 800 MHz radio system that facilitates interoperability during emergencies and special events.
- The Ames Police Department, Story County Sheriff's Office, and ISU Police Division all share the same Computer-Aided Dispatch (CAD) and records management software. The three centers are linked through fiber and T-1 lines to ensure information availability and system redundancy.
- The department continues to work with a variety of entities when staffing major special events, to include: Iowa State Patrol; Ames Police Department; Story County Sheriff's Office; United States Secret Service; Iowa Division of Criminal Investigation; Federal Bureau of Investigation; and contracted private security firms.

## **PHYSICAL SECURITY CAPABILITIES**

- The department was recently awarded a federal equipment-related grant to enhance safety and security near the College of Veterinary Medicine complex.
- A designated and specially trained employee continues to review blueprints and provide Crime Prevention through Environmental Design (CPTED) advice to architects and project managers. This proactive approach helps identify any safety related concerns prior to construction.
- The university extensively utilizes electronic access control systems to enhance security. This technology is incorporated into all new construction.
- The Department of Residence added more than 200 cameras in public use areas during the past calendar year.

## **STAFFING**

- The ISU Police Division is authorized 33 sworn, state-certified police officers and eight full-time civilian staff.
- Part-time student employees are utilized to provide support services related to building security, safety escorts, and dispatch.

## **TRAINING OF INSTITUTIONAL PERSONNEL**

- An overview of safety-related issues and services is provided to all incoming students and their parents during orientation sessions held throughout the month of June, as well as at Destination Iowa State.
- Sworn officers provided 46 prevention and outreach programs during the past year to faculty and staff; instruction was provided to 7,110 people. Topics addressed included: workplace violence; personal safety; dealing with difficult people; severe weather response; alcohol laws; sexual assault awareness; and threat assessment/management processes.
- The annual DPS publication, "*Safety & You*" is electronically mailed to all faculty, staff, and students in September of each year. This document can be viewed on the departmental web site; individuals may also request a printed copy by contacting DPS. The publication contains information pertaining to personal safety and property security as required by the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, as well as the Higher Education Opportunity Act.
- The ISU Department of Public Safety continues to annually train Department of Residence (DoR) staff and Cyclone Aides regarding safety related services for students, staff, faculty, and visitors. These sessions are conducted as part of their respective orientation programs.

## **USE OF FORCE/FIREARMS**

- The department's use of force and authorized weapons policies are in compliance with national law enforcement accreditation standards.
- Instruction regarding departmental use of force policies and related laws is conducted semi-annually, thus exceeding national accreditation standards.
- Officers qualify with their issued sidearms twice each year—this also exceeds national accreditation standards and state regulations.
- The department continues to equip officers with, and train them in the use of, chemical spray, expandable batons, and conducted energy weapons.
- The department has three firearms instructors certified through the Iowa Law Enforcement Academy (ILEA). Two officers have additionally received instruction certification through the ALERRT and Strategos, International programs.
- Officers participated in active shooter training twice during the past year; both sessions were conducted with officers from the Ames Police Department.
- No officers discharged a firearm for other than approved training purposes, with the exception of dispatching two injured deer.

## **STUDENT INVOLVEMENT**

- ISU DPS officers conduct campus safety walks each year to identify issues related to lighting, foliage, and other hazards. The most recent effort, conducted in November 2010, was co-sponsored by the Government of the Student Body (GSB). Results were forwarded to facilities personnel for review and follow-up action, if required.
- The department hosts an eight-week Citizen Police Academy (CPA) each year for students, faculty and staff. This outreach effort continues to be very popular and has helped form collaborative relationships.
- ISU DPS has operated a Safety Escort program for approximately 14 years. Walking or vehicle-assisted escorts are provided free of charge to faculty, staff, students, and visitors. The service is very popular, as evidenced by the following statistics: 2006 (1,832); 2007 (2,413); 2008 (3,734); 2009 (4,144); and 2010 (5,667).
- A Motorist Assist Program has been in existence for approximately 16 years. Services are provided free of charge for those requiring assistance, to include: vehicle jump starts; tire changing/airing equipment; and escorts to obtain fuel. The number of motorist assists performed in 2010 was 1,807.
- The department employs approximately 70 students in various support functions, including: communications; security; safety escorts; motorist assists; parking enforcement; and records management.

### **SAFETY AND SECURITY GOALS**

- Proposals to replace and upgrade the multi-agency computer-aided dispatch and records management system were reviewed and a vendor was selected. Installation and record conversion is scheduled to begin later during 2011. The process is estimated to take twelve to eighteen months to complete. Once in place, the system will more adequately address emergency and routine information needs.
- The department continues to seek permanent funding to ensure valuable Sexual Assault Response Team (SART) services can continue on an institutional and countywide basis.
- Continue to coordinate a statewide college program promoting leadership and positive choices regarding alcohol consumption and driver safety.
- Increase the number of doors controlled by electronic access systems, as well as the number of digital cameras utilized throughout campus.
- Continue to collaborate with other state agencies and organizations to maximize threat management, criminal intelligence, emergency response, and investigative functions.
- Systematize the delivery of crime prevention information disseminated to faculty, staff, and students during orientation and in-service sessions.
- Ensure continued compliance with all applicable accreditation standards.

### **SMOKING BAN**

- ISU DPS received or initiated 189 smoking-related calls for service during 2010. The reports were documented and officers were sent to investigate. When possible, officers and student security personnel patrolled areas reported to be problematic.
- Officers issued 48 state citations and 246 warnings, most of which were verbal, to community members and visitors.
- Smoking-related signage has been posted at university entrances, on building doors, and on state-owned fleet vehicles. Additional notices were placed at areas deemed to be especially problematic.

## **CAMPUS SAFETY AND SECURITY REPORT**

### **University of Northern Iowa**

### **Calendar Year 2010**

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

#### **MASS COMMUNICATION CAPABILITIES**

- UNI continues to utilize Connect-Ed for the purpose of mass communication notification to include e-mail, text messaging, and voice mail.
- The UNI-Alert information is on the UNI web site and provides information to faculty, staff, and students about registration, as well as the notification process.
  - UNI Alert was used in the following incidents:
    - January 25, 2010 weather related evening class closure.
    - February 8, 2010 weather related evening class closure.
    - August 3, 2010 for severe weather alert.
    - Each semester a test of the Alert system is conducted to ensure notification and system capabilities are operational.

#### **External Mass Voice Notification System**

- American Technology Inc. continues to provide the campus outdoor voice notification system for UNI. Installation of this system was completed and testing of the system is conducted each month in coordination with Black Hawk County Emergency Management.
- There are eight locations where speakers have been installed to provide coverage for campus.
- Speakers provide siren and/or voice notification in the event of weather or other emergency incidents on campus.
- Speakers can be activated via dispatch or by remote location by UNI Police Mobile Command Unit.
- The campus is currently using digital message boards on campus as well as UNI-TV as another source of campus emergency notification.
- The Department of Residence and the Department of Public Safety are currently working with Simplex of Grinnell to add voice notification for fire alarm speakers in the residence facilities in the Redeker Center, Noehren Hall, Rider Hall, Shull Hall, and Hagemann Hall. As building renovations on campus are planned, inclusion of the voice notification systems will be reviewed for improvements.

## **THREAT ASSESSMENT AND MANAGEMENT**

- UNI Public Safety continues to partner with other campus departments to ensure cooperation across various administrative areas of the university concerning issues which pose a potential threat or concern.
  - UNI DPS continues to participate with the Assessment and Consultation Team for Students and meets on a monthly basis or as necessary.
  - DPS serves as a member on the Critical Incident and Assessment and Consultation Team responding to any personal, weather, or event related concerns.
  - A Case Management Team is in place to address issues which affect employee concerns.
  - DPS is a member of the Bias Response Team whose purpose is to coordinate a University response to bias-related incidents on campus.
- In October of 2010, eight UNI employees received eight hours of Campus Threat Assessment training provided by the Department of Justice in Sioux Falls, South Dakota. The attendees are all part of the UNI Threat Assessment Team. The Threat Assessment Team meets on a weekly basis to discuss issues and concerns and provide direction for departments and individuals for responding to student, faculty, staff, and visitors who may be at risk for harming themselves or others.
- A University safety web-page provides information on safety issues for personal and weather related incidents.
- Numerous training sessions were held for new faculty, department heads, as well as various student organizations on campus reporting and responding to issues, which create concerns regarding student/faculty safety. A new reporting web-site will be included this year for individuals to report their concerns directly to a member of the Threat Assessment Team.
- In December 2010, President Ben Allen formed an Enterprise Risk Management Council of which the Director of Public Safety is a member. This Council was formed to integrate and coordinate University risk management efforts, provide leadership in assessing risk across the institution, identify and prioritize areas for review, assist in identifying strategies to mitigate risk, and make recommendations on institutional policies and procedures in order to insure effective and efficient practices to manage risk across the University.

## **RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES**

- UNI Police meet with Cedar Falls Police to discuss active cases and problems within and around the campus.
- UNI Police meet with local and county law enforcement agencies to discuss various crimes and investigative efforts within the communities.

- The Director of Public Safety is a Board member of the Tri-County Drug Task Force which meets monthly to discuss drug related cases and issues in Black Hawk and surrounding counties.
- UNI Police and the City of Cedar Falls Police Division work closely during major events on campus. We have partnered with local law enforcement during large events on campus as well as off campus.
- UNI Police are involved with a newly formed Gang Task Force, which includes all area law enforcement agencies. The team was formed to review and inform all agencies of activity and concerns within the communities.

### **PHYSICAL SECURITY CAPABILITIES**

- UNI continues to improve the physical security of its buildings by adding electronic locks to newly refurbished buildings to allow remote locking of facilities.
- There are eleven emergency phones on campus which connect directly to UNI Police in the event of an emergency. The phones are checked on a weekly basis to ensure operability.
- The majority of surveillance cameras currently on campus have been placed on a secured network and accessible by Public Safety. The campus is currently working on a policy which addresses the placement and use of cameras within buildings and on the grounds. UNI Public Safety Dispatchers were trained on how to access and review the system.

### **STAFFING**

- The Department of Public Safety hired an officer this year due to a retirement during the last fiscal year. This brings the total number of officers to 18 which are normal staffing levels for the department.

### **TRAINING OF INSTITUTIONAL PERSONNEL**

- On October 27, 2010, a Tabletop Exercise was held for Academic department heads related to emergency management procedures.
- Each officer within the Department of Public Safety completed an online training session for the Basic Incident Command System provided by FEMA.
- Ten officers within the Department of Public Safety participated in training for the Emergency Operations Center. The training provided a hands-on session for the set-up of the center in the event the center is activated for an emergency.
- A Tabletop exercise for the Pandemic Flu was held on September 22, 2010 in Maucker Union with 70 participants. Representatives from the Iowa Department of Public Health, Black Hawk County Emergency Management, Black Hawk County Health Department, Cedar Falls Fire and Police, the UNI Cabinet, and members of the campus community participated in this training. This was a three-hour session, which discussed identification,

response, and recovery issues the campus would be required to complete in the event of an emergency.

- An hour and a half Emergency Management Training session was held with the University Relations Department on November 3, 2010. The Emergency Operations Center and the UNI Call Center were set up for the employees to view. The session covered Emergency Operations and responsibilities.

### **USE OF FORCE/FIREARMS**

- The department continues to conduct semi-annual training for firearms qualification, which exceeds national training standards. During this training, the departmental use of force is reviewed at each training session.
- Officers are equipped with chemical spray, batons, and conducted energy weapons, which officers receive training annually.
- This year, the department initiated a low light evening firearms qualification course for all officers.

### **STUDENT INVOLVEMENT**

- The department currently employs 13 student patrol members to assist police officers in various roles for campus patrols, building lock-up and unlocking services, assistance during move-in, and campus escort requests during the evening hours. During the academic year, Student Patrols provided a total of 1,252 student escorts on campus. In addition, Parking Operations employs 9 students who assist in the office and field operations.
- The department employs one student dispatcher within its operations. The student is a State of Iowa Certified dispatcher as required by law.
- On October 7, 2010, a night campus safety walk was conducted by President Allen, Vice President Tom Schellhardt, Vice President Terry Hogan, and Dave Zarifis, Director of Public Safety, along with six members of the UNI Student Government. The campus was surveyed for lighting concerns, entrance lights to various campus buildings, and landscaping concerns. A report was issued and contacts made with those departments in charge of making the corrections to areas identified in the report.

### **SMOKING BAN**

- The Department of Public Safety received a total of 130 complaints on smoking violations during 2010. The disposition of these calls is as follows:
  - Verbal Warning - 95
  - Citations Issued - 9
  - Gone on arrival/Unable to locate - 26

We will continue to work with campus entities to educate non-university persons who still remain unaware of the restrictions on campus. Many of the violations are occurring during large athletic events and other major campus functions.

**SAFETY AND SECURITY GOALS (2010 AND LONGER TERM)**

- Review and revise the campus emergency response policies and procedures to ensure adequate response to all anticipated emergency responses are addressed. We continue to equip the facilities for operational issues in the event of any emergency. We will continue call center training as well as EOC operational issues and contingencies.
- Priority will be given to preparation and testing of the severe weather alert this spring. Develop and test a campus-wide severe weather scenario and response.
- Two DPS Officers are participating in a training session in March 2011 to address safety issues in the event of an active shooter incident. They will be providing training sessions to the campus community upon their return to campus.

## **Iowa School for the Deaf Safety and Security Annual Report 2010 February 2011**

### **Overview**

The Iowa school for the Deaf continues to upgrade the security and safety environment for the students, staff and other stakeholders on an ongoing basis. This process is dynamic in nature and is being refined and tested as conditions warrant. The schools' crisis plan was significantly modified after a site visit and assessment by Rob Bowers from Iowa State University's Department of Public Safety. The school's leadership teams discussed and evaluated their areas of emphasis and were critiqued on their plan of response to a crisis or critical incident. The school's plan was then reviewed by the Council Bluffs Police Department and the Iowa State patrol to insure that, as probable first responders, they were familiar with the school's protocols and physical layout.

### **Mass Communication Capabilities**

1. The school's campus-wide calling plan was reviewed and adjusted as identified through the review and drill process.
2. The school's storm alert system was tested twice as required by code and as weather conditions warranted.
3. The school's visual alert system is tested monthly to insure that all deaf and hard of hearing students and staff receive notification in case of fire or severe weather.

### **Threat Assessment and Management**

1. State certified officers are hired for large group school sporting events. These off-duty officers are usually from the Council Bluffs Police Department. This arrangement works well and has a very high deterrent factor.
2. The school continues to upgrade its camera surveillance system and has installed additional exterior and interior cameras in locations identified in the site review process and as facility usage changes.
3. The school has continued with the ongoing process where all new employees are subjected to a criminal and child abuse background screening.
4. There is limited access to all school buildings via one exterior door. The rest of the exterior doors are normally kept locked and need to have a key in order to enter the building space.
5. All exterior lighting is kept in good working order and serviced as needed.

6. The installation of the school's first card access locks were mounted on several doors in the school's administration building. This pilot project is still undergoing a yearlong review to ascertain the viability and performance before a larger area is undertaken.

**Training of Institutional Personnel**

1. The school regularly conducts harassment/bullying workshops for all staff and students.
2. The school's crisis contingency plan has been distributed to tenant groups and organizations on campus and with the Lewis Central School district to allow for integration with their plans.
3. We continue with a long term agreement with Lewis Central School District to provide an area of refuge in the event either campus needs to vacate in time of crisis.

**Other**

1. All vehicles used to transport students comply with Iowa Department of Education Standards. This includes all vehicles used to transport students to and from home that are driven by appropriately licensed staff. Vehicles undergo school bus inspections by Department of Education staff or undergo DOT inspection for the larger vehicles. All staff is trained for the task at hand and vehicle evacuation drills are conducted, as required.
2. The school is continuing to look at a cost effective inclusive electronic system that would provide for door access, enhanced intruder notification and lockdown. The school would need to acquire sufficient funding before design could be undertaken and installation started.
3. The school hosted a Southwest Iowa State Patrol critical incident two-day training on our campus that included active shooter and hostage situation training.
4. The school is a host site for Iowa and Nebraska four county law enforcement canine training, which fosters a strong working relationship between the school and the nearby enforcement community.

## **Statewide System for Vision Services / Iowa Braille School Safety and Security Annual Report March 2011**

### **Overview**

The Statewide System for Vision Services / the Iowa Braille and Sight Saving School in cooperation with AmeriCorps NCCC continues to strive to provide a safe and secure campus for the students, staff, families, community members, visitors, related professionals and the general public who access the campus. Iowa Braille School middle school and high school classrooms continue to be located in the Vinton / Shellsburg respective public school buildings. Students reside on campus after school during the week and attend classrooms in the Vinton / Shellsburg schools in the daytime. The remaining on-campus students are participating in a 5<sup>th</sup> year program including work experiences both on and off campus. The campus also hosts student short term extended learning programs.

The Iowa Braille School has a long history of providing a safe environment for students and staff and a climate that reflects the importance of safety as a key value. When physical or personal risk occurs, protocol is in place for the Crisis Management team to respond. The school also continues to comply with the Continuity of Operations Planning (COOP). Staff assigned to Safety and Security mitigation, prevention, preparedness, response and recovery include the Supervisor of Plant Services, the Residence Dean, the Director of Human Resources, and for health concerns, the Registered Nurse. Local public safety authorities are contacted when needed and there continues to be a good relationship with all related agency personnel. The school adheres to the Weapon Free campus policy. The security threat level protocol is also in place.

IBSSS continues as a disaster relief site with Red Cross.

### **Communications Capabilities**

IBSSS current electronic communication capabilities include e-mail; a 2008 AVAYA voice over IP telephone system; access to a web board; an intercom system; and emergency communication buttons in elevators and stair towers in the Old Main building to access assistance. A campus wide communication system was included in the upgrade of the fire alarm system in 2010.

### **Threat Assessment and Management**

The Crisis Management Plan has been reviewed and updating it is a continual process. Personnel ratios and supervision continue to be maintained at an appropriate level to guard against risk. Staff and students practice fire and severe weather procedures in drills a minimum of four times throughout the school year. Evacuation drills from school buses are also conducted. A contract has been established for criminal background checks for employees and volunteers.

University of Northern Iowa risk assessment staff has agreed to be available for consultation. A risk assessment has not been initiated in recent years. With a staff of fewer than 100 people, awareness of individuals who may pose a threat is more obvious to the group as a whole. Staff report concerns to their supervisors, the Superintendent or the Human Resources Director.

### **Physical Security Capabilities**

- All building safety codes are met. The following security capabilities continue: Efficient doors and new locks installed throughout the entire area; Door security protocol implemented and observed; Interior alarm system fully functioning.

- Continued improvements made to outdoor lighting provides for safer access to walk across campus and through parking lots.
- Exterior enunciators have been added to the exterior of buildings for improved alarm capabilities when outside of the buildings.
- Continued use and monitoring of safety precautions regarding: 1) the shared use of tunnels for student movement and the use of tunnels by AmeriCorps; and 2) the use of a student sensory awareness environment.
- AmeriCorps has incorporated the student safety needs and emergency procedures into their Corps member awareness and training program.

#### **Training of Institutional Personnel**

Staff and students reviewed safety procedures at the beginning of the school year. New staff received training during their orientation process. Safety procedures are published on the school's web board and in the Employee Handbook which is available on-line. The custodial staff completed Pandemic Response training in February 2010. Staff was alerted to resources for receiving seasonal influenza shots and the Hepatitis B series of immunizations. Good hand washing procedures were posted and hand sanitizer dispensers were added at each door way.

#### **Safety and Security Short Term Goals**

- Develop a training for use of fire extinguishers for itinerant personnel using vehicles and develop procedure to monitor the monthly checks of fire extinguishers
- Review emergency procedures for severe weather and implement any resulting revisions
- Review procedure on use of fire extinguishers on campus for each shift, train and assign responsibilities accordingly.

#### **Safety and Security Long Term Goals**

- Develop a process for threat assessment
- Annual review of the Crisis Management Plan
- Appoint and train staff for future responsibilities regarding safety and security
- Maintain and provide adequate training for personnel in the areas of mitigation, prevention, preparedness, response and recovery
